

For Us, It's Personal

Our children were in gymnastics for over ten years, first as artistic gymnasts (thru Lvl 7), then as acro gymnasts (thru Lvl 10). When they first started, we quickly realized the limitations of taking pix from the sidelines, even with a good camera. Sharp gymnastics photography requires a blindingly fast shutter speed (1/1000) in notoriously poor lighting, and you can't use a flash without endangering the airborne gymnasts. Accordingly, Paul earned USAG safety certification and began shooting out on the floor during meets.

As families notice throughout competition season, professional photographers tend to offer unedited photos on a flash drive. We offer something different. We crop, sharpen, and color-correct individual shots for maximum dramatic impact. For gymnasts who sign up, we will capture **20+ photos during the floor exercise**. Check out sample pix & collages at marchbanksphotography.com.

To preorder, email us at marchbanksphotos@gmail.com by Friday, February 18, and receive 1 free digital photo file.

To order at the meet, before your gymnast's session, pay using cash, check, or credit card at our table next to the water fountains downstairs.

We will contact you when your gymnast's photos are available for selection.
